

Manual: SMART Folding tower 3 meter working height

Content:

- 2 x Mounting frame 75 cm
- 1 x Hinge piece
- 4 x Double braked wheels 125 mm.
- 1 x Platform 190 without trapdoor
- 4 x Locking Clip
- 1 x Pitch wrench
- + Several bolts, nuts and washers

Step 1

Thanks for buying this room scaffolding. You need to assemble it before use. Attach the hinge piece to the mounting frames with the supplied nuts and bolts. Make sure the lock is at the top of the hinge piece when you attach it. See the pictures below.

Step 2

Place the four wheels in the frame. Use the locking clips to secure them.

Step 3

Turn over the frame and fold it all the way open. Lock the frame with the pin.

Step 4

Place the platform and put the wheels on the brake.

Step 5

Ready to use.

Manual: SMART Folding tower 4 meter working height

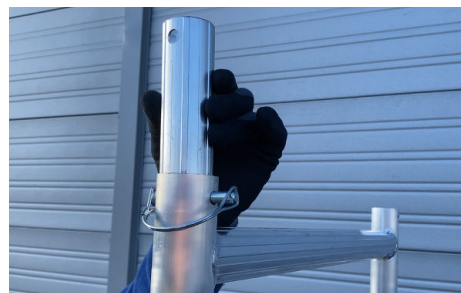

Content:

- 1 x Folding unit 75 cm
- 4 x Pins
- 1 x Horizontal brace
- 4 x Locking clips

Step 1

Place the pin in the folding unit and secure it with a locking clip.

Step 2

Place the Folding unit and brace on the platform, go up in the trapdoor.
